Commissioner for Patents

The reply filed on December 23, 2004 is not fully responsive because it fails to include a complete or accurate record of the substance of the November 12, 2004 interview. The response does not give a complete written statement of the reasons presented in the interview as warranting favorable action. Although box 1 was marked on the PTO-413 form, the substance of the interview summary clearly indicates that an explanation was required in the response to the outstanding Office action. Specifically, it was requested that applicants provide an explanation of what is meant by "activity" and applicants were requested to provide the arguments that were presented in the interview in written form in order to overcome the outstanding enablement rejection. MPEP 713.04 makes it clear that it is the responsibility of the applicant to make the substance of an interview of record in the application file. It is the examiners responsibility to see that such a record is made. Since the above mentioned reply appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).**
